

Voting is Our Superpower

NATIONAL VOTER REGISTRATION DAY

Marching Towards WA
Voter Education & Empowerment Weekend

TODAY is National Voter Registration Day and efforts should already be underway to educate members of our community. We have heard from many chapters about your efforts to raise awareness and to get students and others registered and armed with the credentials needed to VOTE in this critical mid-term election.

This Saturday, September 29th marks our Voter Education and Empowerment Day in Western Area. Chapters can select alternative dates of Friday, September 28th or Sunday, September 30th.

We ask that all chapters plan to do something this weekend. So that we can measure the impact of the activities, please plan to report the following:

- Total number of people served
- Total number of constituents registered to vote
- Total number of partners engaged to help execute program.
- Quantitative data will help us create a baseline

Each chapter is also asked to send pictures of their activities along with the data above to walegislativissues@gmail.com

Post the activities you are doing on Twitter and Facebook. Use the hashtags:

**#VOTE18, #WALinks, #LINKS,
#VOTEREMPOWERMENT**

We have created a logo that should be used as we market our plans. I'm asking all chapters to utilize this – whether it is on poster boards, shirts, buttons or marketing/communication materials.

I look forward to seeing the results of your activities this weekend.
